

GREAT MOTHER PRESENCE
INITIATE ENTRAINMENT
Be Earthed

MODULE 1

A 6 Week Intensive

This initiation lands us in the depths of Mother Earth's presence so that we may truly know our own.

We enter into deep alchemy with Mother Earth to rewire and re-tune our body and nervous system as we unplug from the synthetic constructs to come back home in our bodies to the natural world. It is here that we begin to feel and experience our unique relationship to Her and our transmission from Her womb-heart begins to flow.

The alchemical unwinding into her Presence brings us into deeper observation of the constructs that create/ weave the matrix/patriarchal paradigm, both seen and unseen, conscious and unconscious, tracing them to the source.

Here we become curious and slowly become conscious of the deeper mechanisms of the world we live in. We come to see what lives inside us and where we have potentially partnered with these so that we may unravel, heal and release these constructs from our body and our energy field.

This alchemical dissolution naturally parts the veils to the Sacred within, to rebirthing origin life alive in our cells and our body field.

It's with such great excitement and honour that I birth this offering at this time and each of you receiving this invitation are here because your Soul has found your way here. This is being created for you, as a calling from your Soul and the Soul of Mother Earth.
